

INTERNSHIP PROGRAM TABLES

Date Program Tables are updated: September 2023

Internship Program Admissions

The Utah State Hospital Doctoral Internship program had three unique match numbers; one for clinical psychology, one for forensic psychology, and one for neuropsychology. Beginning in the 2020-2021 internship year the hospital began offering six internship positions. We accept applicants from PhD and PsyD programs. While there is a preference for clinical psychology students, we also interview and accept counseling and school psychology students. Applicants should have passed their comprehensive exam and dissertation proposal should be approved prior to applying to our internship program. All applicants should have a minimum of three years of graduate training. The following qualities are considered when selecting internship applicants to participate in the interview process: completion of coursework, diagnostic and intervention experience and expertise, experience conducting psychological assessments that include gold standard assessment measures, dedication to empirically supported interventions, academic excellence, interpersonal maturity and sensitivity, a wide range of practical experiences, high ethical standards and professionalism, solid clinical judgment, the ability to work as a team member, and appropriate career interests. We particularly value candidates who are dedicated to working with individuals who have severe and chronic mental illness.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	Yes	200
Total Direct Contact Assessment Hours	Yes	50

Describe any other required minimum criteria used to screen applicants: It is preferred that applicants have completed 5 comprehensive psychological assessment that include gold standard measures.

Financial and Other Benefit Support for Upcoming Training Year*
